EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit Numbers 19566, PSD-TX-768M1, and PSD-TX-932

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

(1) Emission point identification - either specific equipment designation or emission point number from a plot plan.
(2) Specific point source names. For fugitive sources use area name or fugitive source name.
(3) CO - carbon monoxide
COS - carbonyl sulfide
CS_2 - carbon disulfide
Cl_2 - chlorine
HCl - hydrogen chloride
H_2S - hydrogen sulfide
H_2SO_4 - sulfuric acid
NH_3 - ammonia
NO_x - total oxides of nitrogen
PM - particulate matter, suspended in the atmosphere, including PM_{10}
PM_{10} - particulate matter equal to or less than 10 microns in diameter. Where PM is not listed, it shall be assumed that no PM greater than 10 microns is emitted
SO_2 - sulfur dioxide
VOC - volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1
(4) Fugitive emissions are an estimate only and should not be considered as a maximum allowable emission rate.
(5) The annual emission rate in tons per year is based on operating 336 hours per year (rolling annual basis) with the stack burner/thermal oxidizer down.
(6) The PM emissions include PM_{10} emissions. The PM and TSP are considered interchangeable.
(7) Emission rate is an estimate and is enforceable through compliance with the applicable Special Condition(s) and permit application representations.)

* Emission rates are based on and the facilities are limited by the following maximum operating schedule:

Hrs/day 24 Days/week 7 Weeks/year 52

** Compliance with annual emission limits is based on a rolling 12-month period.

*** Emissions regulated under PSD-TX-932 permit authorization.
