Re: Permit Application
Permit Number: 71508
Cotton Gin
O'Donnell, Dawson County
Regulated Entity Number: RN101929107
Customer Reference Number: CN601054281

Dear Mr. Daffern:

This is in response to your Form PI-1G, entitled "Grandfathered Facility Permit Application," concerning the above-referenced previously grandfathered facility. This will acknowledge that your application for the above-referenced facility is technically complete as of June 29, 2004. We appreciate your cooperation in sending us the information necessary to evaluate your proposal.

This project meets the requirements for the Small Business Stationary Source Permit, Title 30 Texas Administrative Code § 116.774, if operated as described in your application. A permit for your facility is enclosed. The permit contains several general and special conditions that define the level of operation and allowable emissions. In addition, no new construction is authorized with the issuance of this permit. This permit will be in effect for ten years from the date of approval.

Please reference the regulated entity number (RN), customer reference number (CN), and permit number noted in this document in all your future correspondence for the referenced facility or site. The RN replaces the former Texas Commission on Environmental Quality account number for the facility (if portable) or site (if permanent). The CN is a unique number assigned to the company or corporation and applies to all facilities and sites owned or operated by this company or corporation.
