

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 33987

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

- (4) Fugitive emissions are an estimate only and should not be considered as a maximum allowable emission rate.
- (5) Compliance with annual NO_x limit to be determined using CERM data.
- (6) Compliance to be determined through any performance tests required pursuant to Special Condition No. 13.

* Emission rates are based on and the facilities are limited by the following maximum operating schedule:
