

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 24680

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Section 101.1

HCl - hydrogen chloride

(4) Etching process emissions from this source are covered under 30 TAC Section 106.375.

* Compliance with annual emission limits is based on a rolling 12-month period.

** Emission rates are based on and the facilities are limited by the following maximum operating schedule:

24 Hrs/day 7 Days/week 52 Weeks/year or 8,760 Hrs/year

Dated August 2, 2001
