

Emission Sources - Maximum Allowable Emission Rates

Special Permit Number 17200

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Air Contaminants Data

| Emission Point No. (1) | Source Name (2) | Air Contaminant Name (3) | Emission Rates (6) * | |
|------------------------|----------------------------------|--------------------------|----------------------|--------|
| | | | lbs/hour | TPY ** |
| T1 through T7 | Conveyors and Hoppers (4) (5) | PM | 0.83 | 1.04 |
| | | PM ₁₀ | 0.29 | 0.36 |
| D1 and D2 | Loading/Unloading Operations (4) | PM | 0.23 | 0.29 |
| | | PM ₁₀ | 0.11 | 0.14 |
| SPFUG | Stockpiles (4) | PM | -- | 7.24 |
| | | PM ₁₀ | -- | 3.43 |

- (1) Emission point identification - either specific equipment designation or emission point number from plot plan.
- (2) Specific point source name. For fugitive sources, use area name or fugitive source name.
- (3) PM - total particulate matter, suspended in the atmosphere, including PM₁₀ and PM_{2.5}, as represented
PM₁₀ - total particulate matter equal to or less than 10 microns in diameter, including PM_{2.5}, as represented
- (4) Fugitive emissions are an estimate only
- (5) Emission rate values represent the total emissions from all the emission point numbers listed, (i.e, T1 through T7).
- (6) Planned startup and shutdown emissions are included. Maintenance activities are not authorized by this permit.

* Emission rates are based on and the facilities are limited by the following maximum operating parameters and schedule:

8 Hrs/day 6 Days/week 52 Weeks/year or Hrs/year

Maximum Hourly Throughput: 1,000 tons

Maximum Annual Throughput: 2,946,000 tons

** Compliance with annual emission limits is based on a rolling 12-month period.

Date: March 8, 2013
