

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit Number 44918

This table lists the maximum allowable emission rates and all sources of air contaminants covered by this permit and does not include the PBR sources. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.
