

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 19617A

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

(1) Emission point identification - either specific equipment designation or emission point number from plot plan.

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

- (2) Specific point source name. For fugitive sources use area name or fugitive source name.
- (3) VOC- volatile organic compounds as defined in 30 Texas Administrative Code Section 101.1.
Exempt Solvent- not considered to be VOC components; i.e., ammonium hydroxide, phosphoric acid, etc.
POC - products of combustion
- (4) Fugitive emissions are an estimate only and should not be considered as a maximum allowable emission rate.

* Emission rates are based on and the facilities are limited by the following maximum operating schedule:
