

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Special Permit Number S-17718

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit. **(7/08)**
