

# EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 41682

This table lists the maximum allowable emission rates for all sources of air contaminants covered by this permit. Annual emission rates (TPY) are based on any 12 consecutive months.

## AIR CONTAMINANTS DATA

Emission Point No. (1)	Source Name (2)	Air Contaminant Name (3)	Emission Rates	
			lb/hr	TPY
PV1	Custom Marble Manufacturing	MEK (4)	0.18	0.13
		Styrene (4)	9.56	8.38
		Acetone	6.64	5.31
		PM 0.05	0.03	
		POC 0.04	0.04	

(1) Emission point identification.

(2) Specific point source name.

(3) MEK - methyl ketone ethyl

PM -particulate matter, suspended in the atmosphere, including PM<sub>10</sub>.

PM<sub>10</sub> -particulate matter equal to or less than 10 microns in diameter.

Where PM is not listed, it shall be assumed that no particulate matter greater than 10 microns is emitted.

POC -products of natural gas combustion including carbon monoxide, sulfur dioxide, oxides of nitrogen, PM, and non-methane volatile organic compounds.

(4) "Hazardous Air Pollutant" as defined by FCAA Title III, Section 112.
