(1) Emission point identification - either specific equipment designation or emission point number from a plot plan.

(2) Specific point source names..

(3) VOC - volatile organic compounds as defined in 30 Texas Administrative Code Section 101.1

PM - particulate matter, suspended in the atmosphere, including PM<sub>10</sub>.

PM<sub>10</sub> - particulate matter equal to or less than 10 microns in diameter. Where PM is not listed, it shall

be assumed that no particulate matter greater than 10 microns is emitted.

\* Compliance with annual emission limits is based on a rolling 12-month period.
