

## EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 31847

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these sources. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

(2) Specific point source name from permit application.

(3) VOC - volatile organic compounds as defined in General Rule 101.1  
POC - products of combustion

(4) Annual emission rates are for any 12 consecutive months.

Emission rates are based on and the facilities are limited by the following maximum operating schedule:

Hrs/day 24 Days/week 7 Weeks/year 52 or Hrs/year 8,760
