

## EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 20374

This table lists the maximum allowable emission rates for all permitted sources and emission rates for exempt sources on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the rates allowed for these facilities. Any proposed increase in emission rates for permitted sources may require an application for a modification of the facilities covered by this permit.
