

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit Number 45604

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by the Voluntary Emissions Reduction Permit portion of this permit. Boilers B1, B2, B3, and B4 are covered by the Electric Generating Facility Permit portion of this permit and are not required to be on this table. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.
