Permit Number 6075

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Air Contaminants Data

| Emission Point | Source Name (2) | Air Contaminant | Emission Rates (6) | |
|-----------------------|--|-------------------|--------------------|---------|
| No. (1) | | Name (3) | lbs/hour | TPY (4) |
| FB-11 | FB-11 Fiber Products Digester Nos. C and D and Blowpit (7)(11) | | 2.13 | 5.25 |

- (1) Emission point identification either specific equipment designation or emission point number from plot plan.
- (2) Specific point source name. For fugitive sources, use area name or fugitive source name.

(3) VOC - volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1

NO_x - total oxides of nitrogen

SO₂ - sulfur dioxide

PM - total particulate matter, suspended in the atmosphere, including PM_{10} and $PM_{2.5}$, as

represented

PM₁₀ - total particulate matter equal to or less than 10 microns in diameter, including PM_{2.5}, as

represented

PM_{2.5} - particulate matter equal to or less than 2.5 microns in diameter

CO - carbon monoxide HCHO - formaldehyde MeOH - methanol

- (4) Compliance with annual emission limits (tons per year) is based on a 12 month rolling period.
- (5) Emission rate is an estimate and is enforceable through compliance with the applicable special condition(s) and permit application representations.
- (6) Planned startup and shutdown emissions are included for all sources, as well as planned maintenance activities identified for EPNs FB-25, FB-25 MSS, FB-102A MSS, FB-102B MSS, FB-102C MSS, FB-181, BAG-HANDLE, FB-RTO, and RTO VENT as part of permit amendment issued on July 30, 2013.
- (7) To demonstrate compliance, emissions from EPNs FB-11, FB-12, and FB-13 should be summed.
- (8) To demonstrate compliance, emissions from EPNs FB-101A through FB-101F should be summed.

- (9) To demonstrate compliance, emissions from EPNs FB-120A and FB-120B should be summed.
- (10) To demonstrate compliance, emissions from EPNs FB-201 and FB-202 should be summed.
- (11) Compliance with short-term emission rates is based on a daily average.
