EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 6299

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Where PM is not listed, it should be assumed that no particulate

⁽³⁾ PM - particulate matter suspended in the air, including PM_{10} - particulate matter equal to or less than 10 microns in diameter.

matter greater than 10 microns is emitted.

- (4) Fugitive emissions are an estimate only and should not be considered as a maximum allowable emission rate.
