Permit Numbers 107523, PSDTX1336, and N174M1

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Air Contaminants Data

Emission	Emission Point No. Source Name (2) (1)	Air Contaminant	Emission Rates	
		Name (3)	lbs/hour	TPY (4)
COMBCAP	Combustion Unit Cap Includes (8) HR15.101 DW37.101 BO10.103A BO10.103B	NO _X		110.21
		CO		186.61
		VOC		44.70
		PM		86.15
		PM ₁₀		86.15
		PM _{2.5}		86.15

- (1) Emission point identification either specific equipment designation or emission point number from plot plan.
- (2) Specific point source name. For fugitive sources, use area name or fugitive source name.

(3) VOC - volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1

NO_x - total oxides of nitrogen

SO₂ - sulfur dioxide H₂SO₄ - sulfuric acid

PM - total particulate matter, suspended in the atmosphere, including PM₁₀ and PM_{2.5}, as

represented

 PM_{10} - total particulate matter equal to or less than 10 microns in diameter, including $PM_{2.5}$, as

represented

PM_{2.5} - particulate matter equal to or less than 2.5 microns in diameter

CO - carbon monoxide

NH₃ - ammonia

(4) Compliance with annual emission limits (tons per year) is based on a 12 month rolling period.

- (5) Emission rate is an estimate and is enforceable through compliance with the applicable special condition(s) and permit application representations.
- (6) Annual MSS emissions are included in the annual routine allowable rate for this EPN.
- (7) Annual emissions are sub-caps of the annual allowable rate for EPN DW37.101.
- (8) The annual combined NO_X, CO, VOC, PM, PM₁₀, PM_{2.5}, SO₂, NH₃, H₂SO₄ emissions from Emission Point Nos. HR15.101, DW37.101, BO10.103A, BO10.103B are limited per the annual emissions CAP for each pollutant listed.
- (9) Contaminants for this EPN not specifically listed in MSS are limited to their respective routine short-term (lb/hr) emission rates.
