Permit Numbers 70861 and PSDTX1039

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Air Contaminants Data

Emission Some Point No. (1)	Source Name (2)	Air Contaminant Name (3)	Emission Rates	
			lbs/hour	TPY (4)
S01	Pulverized Coal (PC) Boiler	NO _x (30-day)	573	1,793
	(8,185 MMBtu/hr)	NO _x (1-hr)	1,637

⁽¹⁾ Emission point identification - either specific equipment designation or emission point number from plot

⁽²⁾ Specific point source name. For fugitive sources, use area name or fugitive source name. Project Number: 186706

Permit Numbers 70861 and PSDTX1039 Page

Emission Sources - Maximum Allowable Emission Rates

(3) NO_x - total oxides of nitrogen

SO₂ - sulfur dioxide

- total particulate matter, suspended in the atmosphere, including PM₁₀ and PM_{2.5}

 PM_{10} - total particulate matter equal to or less than 10 microns in diameter, including $PM_{2.5}$

CO - carbon monoxide

VOC - volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1

HAP - hazardous air pollutants

- (4) Compliance with annual emission limits (tons per year) is based on a 12-month rolling period. Annual limits include emissions from normal and planned maintenance, startup, and shutdown emissions.
- (5) Total halogenated acids equals the sum of hydrogen chloride and hydrogen fluoride emissions. Although separate annual emission limits are established for HCl and HF, total annual emissions of these air pollutants shall not exceed the single annual emission limit for total halogenated acids.
- (6) Fugitive emission rate is an estimate and is enforceable through compliance with the applicable special conditions and permit application representations.
