EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit Number 1468

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

AIR CONTAMINANTS DATA

| Emission Point No. (1) | Source Name (2) | Air Contaminant Name (3) | <u>Emiss</u> lb/hr | sion Rates * TPY |
|---------------------------|---------------------|-----------------------------|-------------------------------------------------------|------------------------------------|
| PP-40A | South ADN Boiler ** | VOC | 1.62 CO 56.70 NO _x 490.00 | 7.10 248.40 2146.20 |
| PP-40B | North ADN Boiler ** | VOC | 1.99 CO 69.40 NO _x 637.00 PM 6.80 | 8.71 303.90 2790.00 30.00 |
| PP-148A | Fugitive (4) | VOC | 0.14 | 0.59 |
| PP-148B | Fugitives (4) | VOC | 0.042 | 0.18 |

- (1) Emission point identification either specific equipment designation or emission point number from plot plan.
- (2) Specific point source name. For fugitive sources use area name or fugitive source name.
- (3) PM particulate matter suspended in the atmosphere, including PM₁₀

Hrs/day _____ Days/week _____ Weeks/year ____ or Hrs/year _8,760

- PM₁₀ particulate matter equal to or less than 10 microns in diameter. Where PM is not listed, it shall be assumed that no PM greater than 10 microns is emitted.
 - VOC volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1
 - NO_x total oxides of nitrogen
 - CO carbon monoxide
- (4) Fugitive emissions are an estimate only and should not be considered as a maximum allowable emission rate.
- * Emission rates are based on and the facilities are limited by the following maximum operating schedule:

| ** Pound per hour emission rates are based on a rolling 30-day average. | | | | | |
