EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit Number 85144

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

AIR CONTAMINANTS DATA

Emission	Source	Air Contaminant	Emission Rates	
Point No. (1)	Name (2)	Name (3)	lb/hr	TPY (4)
001	Gelcoat Spray Booth	VOC Exempt Solvent	3.24 0.62	4.00 0.63
002, 003, and 004	Production Areas 1 and 2	VOC Exempt Solvent	8.55 1.86	4.69 1.89
005	Finishing Area	PM	1.39	1.36
All Emission Points at the Site	All Sources at the Site	Individual HAP		<10.00 (5)

- (1) Emission point identification either specific equipment designation or emission point number from a plot plan.
- (2) Specific point source names. For fugitive sources, use an area name or fugitive source name.
- (3) Exempt Solvent Those carbon compounds or mixtures of carbon compounds used as solvents which have been excluded from the definition of volatile organic compound.
 VOC volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1
 PM particulate matter, suspended in the atmosphere, including PM₁₀ and PM_{2.5}
 PM₁₀ particulate matter equal to or less than 10 microns in diameter
 - PM_{2.5} particulate matter equal to or less than 2.5 microns in diameter

 HAP hazardous air pollutant as listed in § 112(b) of the Federal Clean Air Act or

 Title 40 Code of Federal Regulations (40 CFR) Part 63, Subpart C
- (4) Compliance with annual emission limits is based on a rolling 12-month period.
- (5) This HAP limit is being included so that a Title V permit is not required, but due to EPA's once-in, always-in policy, the requirements of 40 CFR Part 63, Subpart VVVV (Boat Manufacturing) remain applicable because operations began without a federally enforceable limit to ensure that the site is not a major source of HAPs.

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES
