## EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

## Permit Number 3413A

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

 $\text{PM}_{10}$  - particulate matter less than 10 microns in diameter. Where Pm is not listed, it shall be assumed

that no particulate matter greater than 10 microns is emitted (4) Fugitive emissions are estimates only.

<sup>\*</sup> Emission rates are based on and the facilities are limited by the following maximum operating schedule and production rate:
