#### Permit Number 38383

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

 $PM_{10}$  - particulate matter equal to or less than 10 microns in diameter

Bases - sodium hydroxide

<sup>(1)</sup> Emission point identification

<sup>(2)</sup> Specific point source names.

<sup>(3)</sup> VOC - volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1

Acids - phosphoric acid, nitric acid, acetic acid, and hydrochloric acid

HAP(s) - hazardous air pollutant(s) as listed in § 112(b) of the Federal Clean Air Act or as

amended in Title 40 Code of Federal Regulations Part 63, Subpart C

\* Compliance with annual emission limits is based on a rolling 12-month period.
