Permit Number 36297

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Air Contaminants Data

- (1) Emission point identification either specific equipment designation or emission point number from plot plan.
- (2) Facility identification number as represented in Table 1(a)
- (3) Specific point source name. For fugitive sources, use area name or fugitive source name.
- (4) VOC volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1
 - NO_x total oxides of nitrogen
 - SO₂ sulfur dioxide
 - PM total particulate matter, suspended in the atmosphere, including PM₁₀ and PM_{2.5}
 - PM₁₀ total particulate matter equal to or less than 10 microns in diameter, including PM_{2.5}
 - PM_{2.5} particulate matter equal to or less than 2.5 microns in diameter
 - CO carbon monoxide
- (5) Compliance with annual emission limits (tons per year) is based on a 12 month rolling period.
- (6) Emissions from painting operations 8 a.m. to 9 a.m.
- (7) Emissions from painting operations 9 a.m. to 5 p.m.
- (8) Emissions from painting operations 5 p.m. to 8 a.m.
- (9) Emissions from non-painting operations
- (10) Included in YD-FUG annual emission rates
