EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit No. 23890

This table lists the maximum allowable emission rates and all sources of a ir contaminants on the applicant's property covered by this permit. The e mission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these f acilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Fugitive emissions are an estimate only and should not be considered a s a maximum allowable emission rate.

Emission rates are based on and the facilities are limited by the following maximum operating schedule:
