## Emission Sources - Maximum Allowable Emission Rates

## Permit Number 1071

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities, sources, and related activities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

Air Contaminants Data

| Emission Point No. (1) | Source Name (2)                | Air Contaminant Name (3) | Emission Rates (6) * |      |
|------------------------|--------------------------------|--------------------------|----------------------|------|
| (1)                    |                                |                          | lbs/hour             | TPY  |

<sup>(1)</sup> Emission point identification - either specific equipment designation or emission point number from plot plan.

<sup>(2)</sup> Specific point source name. For fugitive sources, use area name or fugitive source name.

<sup>(3)</sup> CO - carbon monoxide

## Emission Sources - Maximum Allowable Emission Rates

- NO<sub>x</sub> total oxides of nitrogen
- PM total particulate matter, suspended in the atmosphere, including PM<sub>10</sub> and PM<sub>2.5</sub>, as represented
- $PM_{10}$  total particulate matter equal to or less than 10 microns in diameter, including  $PM_{2.5}$ , as represented
- SO<sub>2</sub> sulfur dioxide
- VOC volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1
- (4) Fugitive emissions are an estimate only.
- (5) Total VOC emissions from Spray Sealer Booth Line 55 (Emission Point No. [EPN] S12), Sealer Dry Oven Line 55 (EPN S13), and Spray Sealer Booth Line 56 (EPN S15).
- (6) Planned startup and shutdown emissions are included. Maintenance activities are not authorized by this permit.
  - \* Emission rates are based on and the facilities are limited by the following maximum operating schedule and production rates:

<u>16</u> Hrs/day <u>7</u> Days/week <u>51</u> Weeks/year

Total concrete block production: <u>31.5</u> tons/hour, <u>108,000</u> tons/year

Date: February 7, 2013

Project Number: 186839
