Permit Number 7195A

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit. **(5/09)**

- (1) Emission point identification either specific equipment designation or emission point number from a plot plan.
- (2) Specific point source names. For fugitive sources, use an area name or fugitive source name.
- (3) VOC volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1

NO_x - total oxides of nitrogen

CO - carbon monoxide

PM₁₀ - particulate matter (PM) equal to or less than 10 microns in diameter. Where PM is not listed, it shall be assumed that no PM greater than 10 microns is emitted.

 SO_2 - sulfur dioxide

Veg Oil - vegetable oil

- (4) Emission rate is an estimate and compliance is demonstrated by meeting the requirements of the applicable special conditions and permit application representations.
- (5) The sum of the VOC emissions from all the loading spots in the Loading Rack N24 may not exceed 0.3 ton per year (tpy).
- (6) The sum of the VOC emissions from all the loading spots in the Loading Rack N25 may not exceed 0.1 tpy.
- (7) The sum of the VOC emissions from all the loading spots in the Loading Rack N2829 may not exceed 0.1 tpv.
- (8) These storage tanks are authorized under permits by rule and are not authorized by this permit. Emissions from these storage tanks are listed only for reference.

*	Emission schedule:		are	based	on a	and t	he	facilities	are	limited	by	the	following	maximum	operating
	Hrs	s/day _		Days	/we	ek _		Weeks	/yea	r or <u>8</u>	,76	<u>0</u> -	Irs/year		

** Compliance with annual emission limits is based on a rolling 12-month period.

Dated May 5, 2009
