EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit Number 22054

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

- (1) Emission point identification either specific equipment designation or emission point number from plot plan.
- (2) Specific point source name. For fugitive sources use area name or fugitive source name.
- (3) CCl₄ carbon tetrachloride
 - HCl hydrogen chloride
 - MDI methylene disocyanate
 - VOC volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1
- (4) Fugitive emissions are an estimate only and should not be considered as a maximum allowable emission rate.
- (5) Scrubber C-1313 is located on the M-Plant permitted by Permit No. 1501A. The emissions on this allowable table for this emission point cover only the contribution of L-Plant, Permit No. 22054.
- * Emission rates are based on and the facilities are limited by the following maximum operating schedule:
