EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

Permit Number 50471

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

(1) Emission point identification - either specific equipment designation or emission point number from a plot plan.
(2) Specific point source names. For fugitive sources, use an area name or fugitive source name.
(3) VOC - volatile organic compounds as defined in Title 30 Texas Administrative Code § 101.1
(4) Fugitive emissions are an estimate only and should not be considered as a maximum allowable emission rate.

*   Emission rates are based on and the facilities are limited by the following maximum operating schedule:

   24 Hrs/day 7 Days/week   52 Weeks/year or 8,760 Hrs/year
